On Wednesday, July 1, the bill passed this legislative session to prohibit the slaughter of racehorses for commercial purposes went into effect. Maryland is the only state other than New York to have such a ban in place.

Under the statute, “a person may not:

(1) slaughter or cause the slaughter of a racehorse in the State for any commercial purpose, including for human or animal consumption; or

(2) purchase, sell, offer for sale, import into the state, or transport a racehorse if the person knows or reasonably should know that the racehorse will be slaughtered for a commercial purpose, including for human or animal consumption.”

A ‘racehorse’ is also a horse “that has been recorded on the backstretch of a track in the State, has had a recorded workout on a track in the State, or has participated in a race meeting in the State where pari-mutuel betting is allowed.”

The definition of a racehorse is not breed-specific - in Maryland it applies to Arabians, Standardbreds, and Thoroughbreds. Individuals who violate this act can be imprisoned for up to 1 year or fined up to \$2,500.

The State can also revoke any license granted to the individual or corporation by either the Maryland Racing Commission or the Maryland Department of Agriculture.

The statute does not apply to humane euthanasia by a licensed veterinarian for the reasons unrelated to commercial purposes, “including severe injury, maiming, or injury that results in no quality of life for the racehorse as determined by a licensed veterinarian.”

The bill was introduced by the Maryland Department of Labor, which is the agency that has jurisdiction over horse racing. The Maryland Horse Council testified in favor of the bill, as did the Maryland Thoroughbred Horsemen’s Association, The Maryland Jockey Club, and the Maryland Horse Breeders Association.

Bisphosphonates Prohibition

The entire Mid-Atlantic region will impose, and strongly urges all Thoroughbred industry stakeholders and regulators to support, the enactment of an immediate prohibition on the use of bisphosphonates in all horses under the age of 4, unless and until the scientific and veterinary community determines that the use of such drugs does not compromise the health and welfare of the horse. The use of bisphosphonates in horses 4 years old and older should be limited to only those horses who have been diagnosed with navicular disease by a veterinarian and for whom the use of such drugs is warranted.

Claim Barn

Every claimed horse not subjected to testing will now be sent to the “CLAIM BARN” for observation by the state veterinarian for a period up to one hour. The original groom will be required to bring the claimed horse to that barn and stay with them until released. The original groom must

MRC RULES

Excerpts from Maryland Racing Commission Rules are Provided as a guide only, Consult Commission for most recent rules

(.09.10.01)(26). A horse is a “starter” when the stall doors of the starting gate open in front of the horse at the time the starter dispatches the field.

Barred Horses (.09.10.04.12)(A). Barred Horses. If a trainer has in the trainer's charge a horse whose name appears on a veterinarian's, starter's, steward's, or judge's list or any other list of horses ineligible to start, commonly known as a “Barred List”, at a race track outside this State, the trainer shall report the name of the horse and the fact that the horse has been barred to the Racing Secretary, as well as to the stewards or judges, at the meeting within the State at which the trainer proposes to enter the horse to race.

Claiming. (.09.10.01.07)(A). Except as provided in §A-1 of this regulation, in claiming races a horse is subject to claim for its entered price by: (1) through a licensed owner; (2) An individual authorized to claim in behalf of a registered stable or other multiple ownership entity; or (3) A registered authorized agent in behalf of a person listed in §A(1) or (2) of this regulation. A-1. In claiming races a horse is not subject to claim if: (1) The horse has not started for a minimum of 120 days; (2) The last start of the horse was a claiming race; (3) The horse is entered for a claiming price not less than the claiming price of its last start; (4) For the first race following the period specified in §A-1 (1) of this regulation, the horse is declared ineligible to be claimed at the time of entry; and (5) The program clearly designates that the horse is ineligible to be claimed. **(B).** Eligibility to claim. (1) Except as provided in §A-1(2) of this regulation, to be eligible to claim, a licensed owner, registered stable, other multiple ownership entity shall designate, as the person who will assume control and responsibility of a claimed horse, a licensed trainer who has been assigned stabling on the grounds under the jurisdiction of the Commission. (2) A licensed owner, registered stable, or other multiple ownership entity that does not have a licensed trainer with assigned stabling on grounds under the jurisdiction of the Commission is eligible to claim only to replace a horse lost to a claim at a track under the jurisdiction of the Commission. **(C.) A person may not be eligible to claim more than one horse in a race, either directly or through another.** **(D).** A valid claim shall: (1) Be in writing on a form provided by the association; (2) Be in the name of a person qualified to claim a horse; (3) Be signed by the person, or the agent of the person, in whose name the claim is made; (4) Contain the name of the horse to be claimed in a manner sufficient to avoid confusion with the name of another horse in the race; **(5) Name the trainer who will assume control and responsibility of the horse to be claimed;** (6) Be for the amount printed in the program as the claiming price of the horse; (7) Be enclosed in a sealed envelope, provided by the association, which shall contain no identifying marks on its outside other than the number of the race in which the claimed horse is to participate; (8) Be deposited in the time lock box of the claims clerk at least 10 minutes before the post time for the race in which the claimed horse is to participate; (9) Be supported by funds on deposit at the association in the name of the claimant in an amount sufficient to cover the cost of the claim and any taxes to which the claim may be subject. **(E).** After the deadline for entering a claim has passed, the stewards or designee shall: (1) Open the claim envelope for the race; (2) After ascertaining compliance with §§D and E of this regulation, if there is more than one valid claim for a horse, conduct a public drawing to determine the successful claimant; and (3) Notify the Racing Secretary of the identity of the successful claimant and the horse claimed. **(F).** The stewards may require a person who submits a claim for a horse in a claiming race to make an affidavit declaring that the person is claiming the horse for the person's own account or for the account of another as the registered authorized agent for that person. **(G).** If the stewards determine that a horse was improperly entered in a claiming race, they may; (1) Void a claim of the horse; (2) Order the claiming

MRC RULES

monies, including all taxes, refunded to the claimant through the Clerk of the Course, the horsemen's bookkeeper, or otherwise; and (3) Order the return of the horse to the original owner.

(.09.10.01.07)(H). Except as provided in §H-1 of this regulation, unless there is a violation of this regulation by the claimant, or the stewards determine that a horse was improperly entered: (1) The claim is irrevocable and the claimed horse becomes the property of the successful claimant from the time the horse is a starter; and (2) A purse earned in the race from which a horse is claimed is the property of the owner from whom the horse is claimed.

(.09.10.01.07)(H-1) A claim shall be voided if a horse is a starter and the horse: (1) Dies on the racetrack; or (2) Suffers an injury which requires the euthanasia of the horse, as determined by a State veterinarian, while the horse is on the racetrack.

(.09.10.01.07)(H-2) A claim is voidable at the sole discretion of the new owner, for a period of 1 hour after the race is made official, for any horse that: (1) Is vanned off the track after the race at the discretion of the State Veterinarian; or (2) Is sent to the detention barn and observed to be lame by the State Veterinarian; or (3) is declared lame by vet in claiming barn.

Notice - There are two ways to void a claim in the above circumstance:

1. An owner, his trainer or authorized representative can elect to void the claim by checking a box for that purpose on the new Maryland Claim Form. If you have no intention of keeping a horse that is vanned off the racetrack you should check this box when you submit the claim.
2. There will be a new Void The Claim Form available in the racing office. If you have claimed a horse that is vanned off the racetrack at the direction of the State Veterinarian and did not elect to automatically void the claim on the Claim Form and you do not want the horse, you will have 1 hour after the race is declared official to file with the racing office a completed Void The Claim Form. If timely filed and approved by the Stewards, the claim will be voided.

For the claim of any horse vanned off the racetrack during the running of a race at the direction of the State veterinarian that does not satisfy either of the above requirements, ownership of the horse passes to the claimant.

(.09.10.01.07)(I). After the race has been run, the successful claimant shall present verification of the claim by the Racing Secretary to the person accompanying the claimed horse.

(.09.10.01.07)(K). If a trainer refuses to deliver a horse that has been claimed to the successful claimant when verification of the claim is presented in accordance with §J of this regulation, the: (1) Trainer is subject to sanctions; and (2) Claimed horse shall be disqualified from participating in further racing until delivery is made.

(.09.10.01.07)(L). In claiming races, the following acts, or an attempt to commit the following acts, are prohibited: (1) An agreement to claim, or not to claim, a horse belonging to another owner; (2) Preventing an owner from: (a) Claiming a horse, or (b) Legitimately running a horse in a race; (3) The claiming of a horse by: (a) The owner of the horse, (b) Another person for the account of the owner of the horse, or (c) One owner from another if the trainer of the horse to be claimed trains a horse owned by the entity making the claim; and (a) A lien or other encumbrance affecting the transfer of title to the horse unless there is written permission from the holder of the lien or other encumbrance, attached to the horse's foal certificate, allowing the horse to be entered in a claiming race; (b) An ownership dispute, or (c) A written prohibition of the horse being

MRC RULES

entered in a claiming race which is attached to its foal certificate.

(.09.10.01.07)(M). If a horse is claimed: (1) The horse shall not be eligible to start in a claiming race for less than 25 percent more than the claiming price for a period of 20 days from the date of the claim; (a) For the period of the 21st through the 30th day after the horse is claimed, the horse may only start in a claiming race at a price equal to or greater than the amount for which it was claimed; and

(b) For the period after the 30th day after the horse is claimed, the horse may start in a claiming race at any claiming price.; (2) The horse may not be sold or transferred to anyone, wholly or in part, for a period of 30 days from the day of the claim, except: (a) In a claiming race, or (b) When the horse is entered and starts for a claiming price which would cause the horse to become ineligible to be entered at Laurel or Pimlico; (3) Unless reclaimed, the horse may not remain in the same stable or under the control of management of its former owner or trainer for a period of 30 days from the day of the claim; (4) It may not race outside of Maryland for a period of 60 days from the day of the claim except: (a) To participate in a stake; (b) To participate in a claiming race for a price which would cause the horse to become ineligible to be entered at Laurel or Pimlico; or (c) During the scheduled absence of a live thoroughbred race meet in Maryland for at least 15 days.

(.09.10.01.07)(N). For the purposes of §M of this regulation, the day of the claim does not count in computing the time restrictions.

(.09.10.01.07)(O). The stewards shall report action taken by them, in reference to a violation of this regulation, to the Commission which may, in its discretion, take any further action it considers appropriate.

(.09.10.01.07)(P). A horse which was claimed in another state and entered to race in this State remains subject to the conditions of the claiming regulation in the state where the claim was made until those conditions expire.

(.09.10.01.07)(Q). Notwithstanding information printed in the program or other racing publications, the claimant is solely responsible for determining the horse's: (1) Age; (2) Breeding; (3) Physical condition; (4) Racing record; and (5) Sex.

2. The administration of any adjunct medication within 24 hours of the horse's race is strictly forbidden.
3. The primary change from the current practice in the administration of Salix® to a horse is that a Commission designated veterinarian who does not practice on the grounds will be administering Salix®.
4. All horses shall be administered Salix® on the grounds of the operating racetrack in their assigned stall.
5. All horses declaring the use of Salix® must be on the grounds of the operating track at least 5 hours prior to post time for their race.

.10 Out-of-Competition Testing.

A. The Commission may, at a reasonable time on any date, take blood, urine, or other biologic samples from a horse to ensure compliance with applicable medication and anti-doping standards set forth by the Association of Racing Commissioners International, Inc., as such standards may be amended and updated from time to time. The Commission shall own such samples. This regulation authorizes only the collection and testing of samples and does not independently make impermissible the administration to or presence in any horse of any drug or other substance. A race day prohibition or restriction of a substance by the Commission's regulations is not applicable to an out-of-competition test, unless there is an attempt to race the horse in a manner that violates such regulations.

B. Horses Eligible for Testing.

(1) Any horse that has been engaging in activities related to competing in horse racing in the State may be tested. This includes, without limitation, any horses that are training outside the State to participate in racing in the State, and all horses that are training in the State, but excludes weanlings, yearlings, and horses no longer engaged in horse racing (e.g., retired broodmares).

(2) A horse is presumed eligible for out-of-competition testing if:

- (a) It is on the grounds at a racetrack or training center under the jurisdiction of the Commission;
- (b) It is under the care or control of a trainer licensed by the Commission;
- (c) It is owned by an owner licensed by the Commission;
- (d) It is entered or nominated to race at a premises licensed by the Commission;
- (e) It has raced within the previous 12 months at a premises licensed by the Commission;
- (f) It is nominated to a program based on racing in the State.

(3) The presumptions set forth in this regulation are conclusive in the absence of evidence that a horse is not engaged in activities related to competing in horse racing in the State.

C. Selection of Horses to Be Tested.

(1) Horses shall be selected for sampling by a Commission veterinarian, the Executive Director, an equine medical director, a steward, a presiding judge, or a designee of any of the foregoing.

(2) Horses may be selected to be tested at random, for cause, or as other-

wise determined in the discretion of the Commission.

(3) Licensees of the Commission shall cooperate and comply fully with the provisions of this regulation.

MRC RULES

(4) Individuals who apply for and are granted a trainer or owner license shall be deemed to have given their consent for access at such premises as their horse may be found for the purpose of Commission representatives collecting out-of-competition samples. Licensees shall take any steps necessary to authorize access by Commission representatives at such premises.

D. Collection of Samples.

(1) Samples shall be taken under the supervision and direction of a person who is employed or designated by the Commission. All blood samples shall be collected by a veterinarian licensed in the State, or by a veterinary technician who is acting under appropriate supervision of the State-licensed veterinarian.

(2) Upon request of a representative of the Commission, the trainer, owner, or their specified designee shall provide the location of their horses eligible for out-of-competition testing.

(3) The Commission or its designees are not required to provide advance notice before arriving at any location, whether or not licensed by the Commission, to collect samples.

(4) The trainer, owner, or their specified designee shall fully cooperate with the person who takes samples for the Commission, including, but not limited to:

- (a) Assisting in the immediate location and identification of the horse;
- (b) Making the horse available as soon as practical upon arrival of the person who is responsible for collecting the samples;
- (c) Providing a stall or other safe location to collect the samples;
- (d) Assisting the person who is collecting samples in properly procuring the samples; and
- (e) Witnessing the taking of samples including sealing of sample collection containers.

(5) The management and employees of a licensed racetrack or training facility at which a horse may be located shall cooperate fully with a person who is authorized to take samples. The person who collects samples for the Commission may require that the collection be done at a specified location on such premises.

(6) The Commission, if requested and in its sole discretion, may permit the trainer, owner, or their specified designee to present a horse that is located in the jurisdiction, but not at a racetrack or training center licensed by the Commission, to be sampled at a time and location designated by the Commission.

MRC RULES

E. The Commission may arrange for the sampling of an out-of-State horse by the Commission or the Commission's designee if the horse is located in the State. The Commission or its designee shall follow the relevant provisions of this regulation.

F. The test results shall be made available to the Commission, subject to any restrictions on public disclosure of test results that may apply to the Commission.

G. The Commission, if requested and in its sole discretion, may permit the trainer or owner instead to transport the horse into the State for sampling at a time and place designated by the Commission.

H. The individual who takes samples for the Commission shall provide identification and disclose the purpose of the sampling to the trainer or designated attendant of the horse.

I. An owner or trainer does not consent to a search of the premises by making a horse that is not located at a racetrack or training center available for sampling.

J. If the trainer or other custodian of a selected horse refuses or declines to make the horse available for sampling and the managing owner has previously provided the Commission with a means for the Commission to give immediate notification to the managing owner in such situation, then the Commission shall attempt to notify the managing owner and the eligibility of the horse shall be preserved if the managing owner is able to make the horse available for immediate sampling. The Commission is not required to make repeated attempts to notify the managing owner.

K. The chain of custody record for the sample (including a split sample where appropriate) shall be maintained and made available to the trainer, owner, or their designee when a complaint results from an out-of-competition test.

L. The Commission may have out-of-competition samples tested to produce information that may enhance the ability of the Commission to enforce its medication and anti-doping rules.

M. An out-of-competition sample that is found to contain a prohibited substance may be adjudicated in the same manner as a post-race sample that is found to contain a prohibited substance.

N. Split sample rules and procedures for post-race testing shall apply to out-of-competition testing.

O. The Commission may use any remaining sample for research and investigation.

P. Willful failure to make a horse available for sampling or other willfully deceptive acts or interference in the sampling process shall constitute a violation of the Commission's laws and regulations and may be subject to penalties available under the applicable laws and regulations.

MRC RULES

Q. A selected horse that is presumed eligible for out-of-competition testing shall be placed on the Steward's list and will be ineligible to race in the jurisdiction for 180 days if the horse is not sampled due to

the trainer's, owner's or their designee's assertion that the horse is not engaged in activities related to competing in horse racing in the State. This restriction does not apply if the trainer, owner, or their designee voluntarily allows an immediate collection of the

samples from the horse.

ATTENTION ALL HORSEMEN AND VETERINARIANS

MRC RULES

This Advisory addresses concerns that have recently been expressed by horsemen and veterinarians regarding compliance with the uniform drug testing thresholds and guidelines for the use of Methylprednisolone Acetate (Depo-Medrol) and Procaine Penicillin. The regulators from the Mid-Atlantic racing states met on July 1, 2015 and announce the following Advisory.

METHYLPREDNISOLONE ACETATE (Depo-Medrol)

The testing threshold for methylprednisolone acetate (Depo-Medrol) is 100 pg/ml plasma. This testing threshold is based upon the administration of a total dose of 100 mg methylprednisolone as methylprednisolone acetate in one articular space. The recommended withdrawal time for this administration is a minimum of at least 21 days, but there is a footnote warning that intramuscular (IM) administrations can result in plasma concentrations that can exceed the testing threshold for weeks or months. It is important to understand that the testing threshold can be exceeded if there is: 1) an IM injection; 2) an injection in more than one articular space, 3) a different formulation (e.g., compounded) of methylprednisolone, and 4) an injection into a subcutaneous space, i.e. not injecting into the right spot. This is of particular concern when injecting stifles and hocks, as a portion of the medication often is inadvertently deposited into tissues outside the joint capsule. It is important to understand that when a portion of this drug is placed outside the joint capsule of any joint, an intramuscular or subcutaneous injection will be the result.

Accordingly, it is recommended that 1) Depo-Medrol should not be administered to any horse a trainer wishes to race in the Mid-Atlantic region – New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia and Virginia; and 2) a trainer who chooses to race a horse that has been treated with Depo-Medrol despite this warning should, at

his/her expense, get the horse tested prior to entry to ensure that the horse will test below the testing threshold of 100 pg/ml plasma. The testing threshold of 100 pg/ml plasma will be enforced.

PROCAINE PENICILLIN

The current Guideline for Procaine penicillin requires the reporting of the administration of this drug to the Racing Commission and a mandatory surveillance of the horse for 6 hours prior to the race if the trainer wishes to race the horse. The purpose of the quarantine is to ensure against a nerve block. The Guideline, however, does not specify how long after administration of procaine penicillin the reporting and mandatory surveillance requirements must be followed.

Effective immediately, only Procaine Penicillin administrations within 30 days of a race need be reported to the Racing Commission. The surveillance requirement remains in effect. The Racing Commission or the racetrack, as the case may be, will provide a security guard for the horse at the owner/trainer's expense. Please note that the testing threshold for Procaine Penicillin is 25 ng/ml plasma regardless of the surveillance requirement and this testing threshold will be enforced.
